Our Story

A brief history of Hillside Garden Ace Hardware, from it's founding to the present.

Products & Services

Just a peak at the wide range of products and services we offer.

The Garden Center

A listing of our bagged goods, bulk mulch, live goods, and more!

OUR STORY

Hillside Gardens Past to Present

Hillside Garden was started by Vincent DiGiovanni and his brothers in 1946. What began as a small garden center grew to become a beloved hardware store, in a great town. For Decades Vincent DiGiovanni provided advice and service to local residents and business owners.

When Vincent DiGiovanni passed away in 2016 his sons Gerard and Joe DiGiovanni continued to carry on his legacy.

In 2019 Gerard DiGiovanni purchased the store, and continues to operate it, providing the same great service and selection his father did!

Come visit us, walk through the garden center and view our selection of live goods. Check-in with David about our current bagged-goods. Stop by the paint counter to say hi to Tom... And maybe, just maybe, you can find Sandstorm's hidden sleeping spot!

PRODUCTS & SERVICES

Paints

Our lines of Benjamin Moore Paints includes Ben, Regal Select, Aura, and more! We also stock Woodlux, Benjamin Moore's newest exterior stain, Woodlux!

Delivery

We specialize in the delivery of bulk product, be it Bark Mulch, Sweet Peet, Leaf Mulch, Compost, or Loam. Our delivery area extends to our neighboring communities, from North & West Cambridge to Winchester, and from Watertown to Newton.

Grilling

We stock a wide range of grills from Weber, Traeger, and Big Green Egg. You'll get free assembly and delivery with the purchase of any grill costing \$399 or more.

Ego & Stihl Power Tools

Come see our selection of Ego & Stihl power tools – with both gas and battery-powered options we remain dedicated to your needs now, as well as in the future!

The Garden Center

With a newly renovated garden center, and a team of knowledgeable employees, we are happy to help with your home and garden needs.

We have seasonally shifting products and we do our best to source specialty plants upon request. We invite you to visit us or call the store for up-to-date listings.

You'll find over 50 types of palletized goods in our expansive yard! From leaf mulch to lobster compost, and top soil to lime - Hillside has what you need!

Originally launched in 1961, Turf-tone™ was Espoma’s very first lawn food. We’re excited to share that Turf-tone is back—stronger than ever! Since customers already know and trust our “tone” family of fertilizers, we’re relaunching four of our most popular lawn foods under the Turf-tone name. With Turf-tone, Espoma once again brings proven performance and family-safe lawn care together.

Whether you love the taste of home grown veggies, or the beauty of evergreen shrubs and flower beds, you want to give your plants the best. So give them Espoma Organic’s Tone family of fertilizers. Packed with natural proteins and beneficial microbes, your plants will thank you with strong roots, deep green foliage, and big beautiful blooms and harvests. Espoma Organic – trusted for generations

Espoma's Organic Plant Food SealLong lasting natural organics break down slowly for steady, continuous feeding. Contains Bio-tone® microbes. Adds organic matter to soil. Naturally low in salts so it won't burn.

Our Compost Composition

Made from food scraps, our compost is rich in humus and contains an abundance of immediate and slow release nutrients which nurture beneficial micro-organisms.

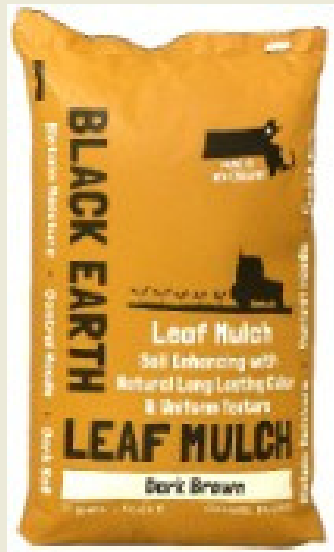

The high quality is demonstrated by:

- A Broad Range of Ingredients to support a bio-diverse compost
- Minimal Grass Clippings that can contain herbicides/pesticides. We actively work to exclude grass from our yard debris ingredient.
- Free of Weed Seeds
- Lab Tested for optimal composition
- Screened to 1/2 inch
- Made in New England! Our compost sites serve as local sources of nutrients, making our region more resilient.

Please Note: Our compost is made from community food scraps, which may contain small amounts of plastic like fruit stickers. While we work to minimize these materials, their occasional presence is a tradeoff for the high nutrient density found in food scraps.

New Black Earth Products Available:

- Leaf Mulch
- BioChar Blend
- Potting Soil

Scotts Miracle-Gro

Feet in the grass, hands in dirt. There is no better place than your own lawn or garden to connect back with who you are and those you care most about. We think everyone deserves a little backyard (or balcony, or terrace, or windowsill) paradise.

Early Spring

Prevents crabgrass all season

Late Spring

Kills weeds you see & the ones you don't

Summer

Feeds and strengthens lawns against heat & drought

Fall

Builds stronger, deeper roots for a better lawn next spring

- **Lawn Revitalization:** Revitalize your lawn and maintain its beauty with this crabgrass preventer and lawn food, your ticket to a lush, weed-free, and stunning green space.
- **Enhanced Nutrient Absorption:** Boosts your lawn's capacity to absorb water and essential nutrients, ensuring a healthier, greener, and more vibrant yard.
- **Early Spring Application:** Apply in early spring to jumpstart your lawn's growth, providing a quick and lush green-up after the winter months.
- **Crabgrass Control:** Effectively controls crabgrass for up to 4 months, maintaining a weed-free and beautiful lawn throughout the growing season.
- **Annual Program:** Part of the Scotts Annual Program, an essential tool for achieving a picture-perfect lawn year after year.

LIVE GOODS

We love spring flowers! Our garden center carries a seasonal variety of flowers, bushes, shrubs, roses, and vegetable plants

Looking for something specific or have a question?

Contact info@hillsideace.com to request plants or ask a question!

ORGANIC GARDENING

We carry a full line of organic products for the organic gardener. Our full line of Coast of Maine products are OMRI listed and Certified by the Maine Organic Farmers and Gardeners Association (MOFGA) for use in the production of organic crops. We also carry a full line of Organic Espoma Fertilizers for everything from your lawn to tomato plants. A listing of our organic products can be found on our website!

BULK PRODUCTS

Sweet Peet Superior Soil Enrichment

Sweet Peet® is the best organic mulch for a vegetable garden because it goes beyond weed control and soil protection:

- **Soil Enrichment:** Sweet Peet® enriches the soil by transforming into humus, which improves soil structure and fertility.
- **Improved Tilth:** By enhancing the soil's tilth, Sweet Peet® makes it more workable and conducive to healthy root growth.
- **Beneficial Earthworms:** Our mulch encourages the presence of beneficial earthworms, which are essential for aerating the soil and improving nutrient availability.
- **Microbe Replenishment:** Sweet Peet® replenishes beneficial microbes often destroyed by harsh chemicals and acid rain, fostering a healthy garden ecosystem.

Black Mulch

Finely textured, aged softwood bark mix tinted with our black environmentally safe colorant to retain it's eye-catching look all season long.

Dark Pine Spruce

Our most popular product is an aged blend of pine, spruce & fir bark which provides an all natural and classic feel to any landscape.

Hemlock

Rich red-orange colored bark with a fine texture creates our most distinctive product setting your landscape apart from the rest.

BULK PRODUCTS

Leaf Mulch

Leaf mulch, made from shredded fallen leaves, is an eco-friendly and nutrient-rich material that improves soil structure, suppresses weeds, and retains soil moisture. Ideal for garden beds, trees, and shrubs, it should be applied 2–4 inches thick, keeping away from direct contact with stems to prevent rot.

Compost

Compost is the outcome of aerobic decomposition of organic materials, like food scraps and yard waste, into nutrient-rich humus, improving soil structure, water retention, and plant health. Key materials include nitrogen-rich greens and carbon-rich browns.

Loam

Loam is an ideal, fertile garden soil composed of roughly sand, silt, and clay, providing superior nutrient retention, aeration, and moisture drainage. It is widely used for gardening, farming, and landscaping because it supports optimal plant growth. Loam is highly beneficial because it prevents soggy soil while remaining nutrient-rich and easy to work.

Order your bulk mulch in-store, or by phone, and we'll schedule your delivery. Lead times are often 5-7 days during the early Spring months, and 1-2 days throughout the summer.

Delivery fees based on delivery zone.

Whole yard increments only, no half yards.
